

**To Whom It May Concern,**

**I am writing this letter in response to United Response Search & Rescue Team and the wonderful job they did in helping my family to locate our daughter when she was missing. On December 30, 2003 our daughter Cherish ran away from home, a close friend of the family suggested using United Response Search & Rescue in our efforts to find her. I can not say enough about how wonderful this organization is, Dana Ames and her group were excellent. I am so impressed with this group of people and the job they do, within hours of talking to Dana we had fliers of our daughter that we were able to post in our community which made all the difference in finding our daughter. If we had to rely on our local law enforcement to help our family find our daughter I do not know when we would have found her. Dana Ames was wonderful to my family and had many conversations with us during the 3 days our daughter was missing she gave us the much needed guidance our family needed that we did not get from our local law enforcement.**

**I am very thankful that there is an organization out there like United Response Search & Rescue Team. This group of people responded like they were looking for a child of their own in helping my family to find our daughter. There are other organizations that look for missing children but I can say from first hand experience they do not make the effort that United Response Search & Rescue make to find a missing child. I can not explain what it meant to my family to have such a caring group of people helping us, when your child is missing you want everything possible done to find your child and this group of people does just that and I can not say Thank You enough to all of them for all of their efforts and the support shown to my family during such a difficult time for us. United Response Search & Rescue Team are a wonderful group of people that are excellent at what they do and I pray they continue on in their efforts to help people for many years.**

**Sincerely,  
Jane A. Bell**
